About Duddell's

Duddell's is a cultural and social destination for people who have an active appreciation for the arts. Founded by one of Hong Kong's most influential young minds with a deep passion for developing Hong Kong's creative landscape, Duddell's stylishly relaxed interiors provides a colourful backdrop against which creative ideas can be shared and developed. It is a place where creative people come together to meet, eat, drink, entertain and relax in an environment that will connect art and people in a fresh, new way

With the rise of Hong Kong as Asia's art and design gateway, Duddell's is also a unique hub for like-minded international visitors who are keen to engage with the vibrant local landscape and its key players. Since 2013, Duddell's has retained its MICHELIN star.

The Venue

With interiors by the celebrated designer Ilse Crawford, Duddell's is a beautiful 2- floored space connected by a dramatic inner staircase. Neither a gallery nor a museum, but with interiors as noteworthy as the art on the walls, it is like being welcomed into the home of a seasoned art collector – one that also happens to have a Michelin starred Cantonese restaurant, a lush Garden Terrace, Library and a sophisticated Salon in which to entertain. Its location in a street of historic significance, in the heart of Central and its close proximity to the galleries in Central, Sheung Wan and Hollywood Road makes Duddell's a fitting addition to Hong Kong's growing art trail.

Its stylishly relaxed interiors provide a colourful backdrop against which creative ideas can be shared and developed. It is a place where creative people come together to meet, eat, drink entertain and relax in an environment which connects art and people in a fresh, new way,

Art Programme

Duddell's vibrant art programme is spearheaded by a dedicated Arts Committee of cultural leaders to ensure a flow of lectures, talks, screenings and exhibitions of the most relevant artwork to the region today. As a core part of the art programme, Duddell's hosts regular exhibitions - inviting renowned curators and internationally celebrated artists in a collaboration to produce world class exhibits. Many of the exhibits are on special loan from the rarely seen archives of private collectors such as the MK Lau Collection, which comprises primarily of 20th century ink-on-paper Chinese works.
